

Shiley® Educational Materials

EDUCATIONAL PRODUCT CASE

Help teach staff, patients and families about tracheostomy care

The *Shiley*® Educational Product Case helps make teaching about tracheostomy care more effective, whether you are in the classroom,

hospital, home or office. It is perfect for training staff or providing orientation and education for patients and their families. The product case offers an excellent way to illustrate points and demonstrate proper procedure.

- Case includes one of every adult and pediatric *Shiley* tracheostomy tube and accessory, plus an adult home care guide, a pediatric home care guide and a product quick reference guide.
- Special product case price saves hundreds of dollars compared with buying tubes separately.
- Labels on individual compartments make product selection easy.

Illustrate the features of the different kinds of tracheostomy tubes.

Demonstrate how a *Phonate*® One-Way Speaking Valve works.

Show how to set up a fenestrated tube for upper airway breathing.

Explain how to change twill ties or use a Tracheostomy Tube Holder.

Practice securing the inner cannula.

Demonstrate the proper inflation of a cuffed tube.

Shiley Educational Materials

HOME CARE GUIDES AND VIDEOS

Patient Educational Materials

Educational materials featured on this page are available free of charge from Nellcor. These items serve as useful educational aids for tracheostomy patients and their caregivers. To order, please contact your local Nellcor representative or call Customer Service at 1-800-NELLCOR.

Tracheostomy Home Care Guides

Adult and Pediatric Tracheostomy Home Care Guides are available in English and Spanish. These informative guides cover important topics such as suctioning, humidification, skin care, changing ties, changing tubes and communication.

Tracheostomy Home Care Videos

Adult and Pediatric Tracheostomy Home Care Videos are designed to be used with the *Shiley* Tracheostomy Home Care Guides. These videos provide an effective complement to instructions received in either the hospital, home or doctor's office.
